

Apex Digital SA: Digital Infrastructure & Performance Guide

Ensuring your digital presence is secure, fast, and constantly evolving.

Your website is a living digital asset. To ensure it remains a secure, high-performing tool that actively scales your business, we provide three comprehensive tiers of management, infrastructure, and growth support

The Apex Strategy: Choosing your path

We believe your website should be a secure, high-performing asset that grows with your business. By hosting your platform on our secure, managed infrastructure, our team utilizes optimized system engineering to eliminate unnecessary manual labor.

This efficiency allows us to offer you two distinct strategic pathways:

- **Pathway 1: Tech Infrastructure & Support (No SEO)** Perfect for businesses looking for absolute technical stability and regular updates. We pass our operational efficiencies directly back to you in the form of highly cost-effective technical care and dedicated monthly support hours.
- **Pathway 2: Performance & Growth (With SEO)** *Powered by the Apex Hosting Dividend.* For businesses looking to actively win local market share. We reinvest our saved technical labor directly into your business by **bundling professional Search Engine Optimization (SEO) at no additional cost** inside our Pro and Elite tiers.

A Note on External Hosting: While hosting with us unlocks maximum value, you are entirely welcome to keep your website on an independent third-party server. Because external platforms cannot connect to our automated systems, updates and security checks must be executed manually. Due to this added engineering overhead, independently hosted websites are managed under our separate **Independent Maintenance Tiers**.

Path 1: Pure Infrastructure & Support plans

1. Tech Core (Essentials)

Best for: Small brochure websites or landing pages focused on technical stability.

- **Monthly Investment:** R450 – R550
- **Infrastructure Upkeep:** We manage weekly WordPress core and plugin maintenance, 24/7 monitoring, and automated backups. **Support Time:** Includes 1 hour of monthly assistance for minor edits. **Turnaround:** 48 business hours.

2. Tech Pro (Operations)

- **Best for:** Active service-based businesses requiring frequent operational content updates.
- **Monthly Investment:** R1,000 – R1,200
- **Performance Management:** Advanced database optimization, deeper speed audits, and daily cloud redundancy.
- **Support Time:** Includes 3 hours of monthly time for layout modifications or functional testing.
- **Reporting:** Monthly "Site Health" PDF analytics deep-diving into speed and traffic trends.
- **Turnaround:** Accelerated 24 business hours.

3. Tech Elite (Dedicated Infrastructure)

- **Best for:** Corporate entities or multi-site platforms requiring priority technical oversight.
 - **Monthly Investment:** R2,000 – R2,400
 - **Advanced Security:** Real-time firewall defense, priority server environments, and live site redundancy.
 - **Support Time:** Includes 5 hours of priority developer time for custom feature modifications.
 - **Consultative Reporting:** In-depth technical architecture reviews and complex performance analytics.
 - **Turnaround:** Priority emergency access with response times under 10 hours.
-

Path 2: Performance & Growth Maintenance Plans (With SEO)

1. Essentials tier

Best for: Brochure websites and small portfolios focused on stability.

Monthly Investment: R650 – R750

This tier focuses on the fundamental health of your site. We handle the technical "heavy lifting" so you don't have to.

- **Upkeep:** We perform weekly updates to your WordPress core, themes, and plugins to prevent security vulnerabilities.
- **Baseline SEO:** Includes essential search visibility updates, meta-tag structure configurations and keyword alignments.
- **Security:** Your site is protected with 24/7 uptime monitoring and automated cloud backups.
- **Support:** Includes **1 hour** of task time per month for small text edits or image swaps
- **Turnaround Time:** 48 business hours.

2. The visibility tier

Best for: Service businesses actively using their site to generate leads.

Monthly Investment: R1,500 – R2,000

The Pro tier is designed for businesses that want to be found. It moves beyond simple maintenance into active growth.

- **Digital Growth (SEO):** Includes our **SEO Starter Plan(plan 0)**. We provide ongoing optimization and tracking for your primary homepage to maximize search engine discovery .
- **Performance:** A monthly "Site Health" PDF audit deep-diving into your platform speed, security metrics, and traffic trends.
- **Support:** Includes **3 hours** of task time for more complex changes or multiple edits.
- **Turnaround Time:** Accelerated 24 business hours

3. The Partner tier

Best for: E-commerce or mission-critical businesses requiring priority care.

Monthly Investment: R3,600 – R4,500

Our Elite tier is a strategic partnership. We act as your dedicated web department, ensuring your site is a competitive advantage.

- **Strategic Growth (Advanced SEO):** Includes our **Local Starter SEO Plan(plan 1)**. We optimize two targeted internal pages every single month and provide full Google Business Profile management to dominate local search ecosystems.
- **Consultative Strategy:** We hold quarterly strategy calls to review advanced analytics and plan your digital roadmap.
- **Support:** Includes **6 hours** of priority development time. You receive emergency access with a turnaround time of less than 10 hours.
- **Turnaround Time:** Urgent response priority in under 10 hours

Plan comparison - SEO tiers

Feature	The Core (Essentials)	The Pro (Visibility)	The Elite (Partner)
Best For	Brochure sites & portfolios	Lead-generation businesses	E-commerce & mission-critical
Monthly Investment	R650 – R750	R1,500 – R2,000	R3,600 – R4,500
Support Time	1 Hour / month	3 Hours / month	6 Hours (Priority Dev)
Growth (SEO)	—	SEO Starter plan (plan 0)	SEO local starter plan (Plan 1)
Maintenance	Weekly Updates	Weekly Updates	Weekly Updates
Turnaround	48 Business Hours	24 Business Hours	< 10 Hours (Priority)
Reporting	—	Monthly Site Health PDF	Advanced Analytics Review + tracking

Path 1 vs Path 2 - Master Selection Menu

Tier	Path 1 : Infrastructure & Support (No SEO)	Path 2: Performance & Growth (With SEO)
Core	R450 – R550 1 Hour Support Tech Upkeep 48hr Turnaround	R650 – R750 1 Hour Support Tech Upkeep 48hr Turnaround
Pro	R1,000 – R1,200 3 hours Support Site Health PDF 24hr Turnaround	R1,500 – R2,000 3 Hours Support Includes SEO Plan 0 24hr Turnaround
Elite	R2,000 – R2,400 5 Hours Priority Dev Technical Audits < 10hr Turnaround	R3,600 – R4,500 6 Hours Priority Dev Includes SEO Plan 1 < 10hr Turnaround

Independent Hosting Plans

For businesses maintaining their own server infrastructure.

Plan	Focus	Key Features	Investment
Core	Technical Upkeep	Manual update verification & external security monitoring.	R850 – R1,000 / mo
Pro	Support Focus	DB Optimization, Speed Checks, & Internal Meta-tagging.	R1,850 – R2,250 / mo
Elite	Security Focus	Proactive Keyword check-ins & Image optimization.	R4,000 – R4,750 / mo

The Fine Print

- **Task Batching & Efficiency Policy:** To ensure your monthly hours are used effectively, we implement a **15-minute minimum increment** for all individual requests. This covers administrative overhead like logging in and testing. To maximize your plan, we recommend batching small requests into a single monthly brief.
- **Standard Hourly Rate:** Any work exceeding your plan's allocated hours is billed at **R350 per hour**.
- **Rollover Policy:** To guarantee availability for all clients, unused support hours do not roll over to the subsequent month.

Secure Website Hosting Infrastructure

To ensure your digital assets remain fast, stable, and continuously accessible, we provide high-performance cloud hosting configurations. Managed natively via enterprise-grade cPanel architecture, these packages offer scalable allocations tailored to your storage and communication demands.

Tier	Best For	Monthly Investment	Core Specifications
Tier 1 Hosting	Early-stage brochure sites or clean portfolios.	R49.00 / mo	1GB Fast Storage • 5x Domain Emails • 1x MySQL Database • Unlimited Web Traffic.
Tier 2 Hosting	Growing local businesses needing expanded staff mailboxes.	R79.00 / mo	3GB Fast Storage • 10x Domain Emails • 1x MySQL Database • Unlimited Web Traffic.
Tier 3 Hosting	Established corporate entities requiring multi-departmental mailboxes.	R99.00 / mo	5GB Fast Storage • 20x Domain Emails • 1x MySQL Database • Unlimited Web Traffic.
Tier 4 Hosting	Content-heavy hubs which require maximized standalone system capacity.	R129.00 / mo	8GB Fast Storage • 30x Domain Emails • 1x MySQL Database • Unlimited Web Traffic.

Digital Growth & SEO Packages

To ensure your website doesn't just look great but actively drives revenue, we offer scalable Search Engine Optimization (SEO) plans. Whether you need a baseline setup or an aggressive strategy to dominate competitive industries, select the tier that matches your business objectives.

Once-Off SEO Baseline

Best for: Brand new websites or businesses needing a clean, foundational search presence.

- **Core Focus:** Indexing foundation and tracking setup.
- **What's Included:**
 - Full XML sitemap creation and indexing verification with Google Search Console.
 - Complete analytics and tracking deployment to accurately monitor visitor behavior.
 - Essential on-page SEO optimization for your primary homepage.
- **Client Investment: R2,500 (Once-off)**

1. SEO Starter (Plan 0)

*Best for: Small brochure sites wanting to maintain consistent visibility on their primary entry point. Note: This plan is automatically included at no extra cost in our **Pro (Visibility) Maintenance Tier**.*

- **Core Focus:** Homepage maintenance and keyword tracking.
- **What's Included:**
 - Ongoing monthly homepage optimization to adapt to search engine algorithm updates.
 - Continuous core keyword tracking and visibility reporting.
- **Standalone / Add-on Investment: R850 / month**

2. SEO Local Starter (Plan 1)

Best for: Growing service businesses looking to capture high-intent leads in specific regional markets.

*Note: This plan is automatically included at no extra cost in our **Elite (Partner)** Maintenance Tier.*

- **Core Focus:** Multi-page local search visibility and Google Map optimization.
- **What's Included:**
 - **Targeted Page Optimization:** Deep-dive keyword optimization for 2 internal high-value pages every month.
 - **Google Business Profile (GBP) Management:** 2 custom, keyword-optimized posts per month + basic profile optimization to capture local map pack traffic.
 - **Performance Tracking:** Comprehensive monthly health checks and transparent reporting on keyword rankings, traffic, and lead generation.
- **Standalone Investment: R3,200 / month**

3. SEO Local Growth (Plan 2)

Best for: Established businesses aiming to aggressively outrank regional competitors and scale content.

- **Core Focus:** Content expansion, local citation building, and technical authority.
- **What's Included:**
 - **Expanded Page Optimization:** Ongoing on-page optimization for 2–3 high-priority pages every month.
 - **Google Business Profile (GBP) Dominance:** Weekly strategic posts, complete product/service catalog curation, custom Q&A setup, and an active customer review acquisition strategy.
 - **Local Authority Building:** 5–10 premium local citation placements per month to guarantee strict NAP (Name, Address, Phone) consistency across the web.
 - **Technical Backlog Execution:** Ongoing cleanup of underlying technical SEO bugs, crawl errors, and broken links.
 - **Content Generation:** 1 detailed monthly content brief or 1 high-value short blog post targeting informational search queries.
 - **Rich Snippet Schema:** Advanced structured data markup on 2 key pages per month to improve visual real estate on Google.
- **Client Investment: R6,500 / month**

4. SEO Competitive (Plan 3)

Best for: E-commerce platforms, national brands, or businesses operating in hyper-competitive markets.

- **Core Focus:** Aggressive multi-page scaling, digital PR authority, and conversion path tracking.
- **What's Included:**
 - **High-Volume Page Optimization:** Full on-page and technical optimization for up to 6 critical revenue-generating pages per month.
 - **Premium Content Strategy:** 1 comprehensive, authoritative content piece per month with explicit target word counts and an integrated client approval workflow.
 - **Advanced Technical Execution:** Strict implementation of advanced schema architecture across all optimized pages and strategic internal linking maps.
 - **Authority & Trust Building:** High-standard link profile monitoring, quality control checks, and digital PR alignment.
 - **Conversion Rate Optimization (CRO):** Proactive form optimization, strategic call-to-action (CTA) auditing, and advanced multi-channel lead tracking.
- **Client Investment: R11,500 / month**
